

ShorePhone Telephones

Unifying the flow of
information across
your business

BENEFITS

- *Ergonomic design for effortless communication*
- *Immediate gains in workforce productivity*
- *Dramatically lower installation, training, and support costs*
- *A wide range of phones to fit enterprise requirements*

ShoreTel® ShorePhone™ IP telephones boost productivity everyday, across the organization, and are part of ShoreTel's Unified Communication platform. ShorePhone IP telephones are designed to enable effortless communication—beautifully. Our family of ergonomically designed, high performance phones offers an ideal communication solution for everyone in your organization, giving users the freedom to communicate easily and effectively. ShorePhones are also just as pleasing to your IT organization—pre-configured to be added instantly to the network, they eliminate time-consuming manual installation.

Ergonomic design for effortless communication

ShorePhone IP telephones are designed to conform to the human body, providing easy access to a full range of communication services. Tactile keys reduce strain on the fingers and wrists, while the precision-balanced, contoured handset can rest comfortably in your hand or on your shoulder.

Visually, ShorePhone IP telephones are designed to keep communication flowing across your organization by instantly conveying comprehensive information. Users can easily see who is calling (Caller ID), get a quick read on missed calls and unheard voicemail messages, and get a clear and intuitive indication of the call's status (on hold, muted, etc.). All of this data is easily viewed on the ShorePhones' vertical displays; selected models are enhanced by backlit displays. All ShorePhones feature a message-waiting light visible from a 360° viewing angle, instantly alerting users, as well as color-lit line buttons that provide immediate, at-a-glance information about incoming calls and messages. All ShorePhone IP telephones are available in silver or black to complement any décor.

ShorePhone IP telephones' high performance design has crystal-clear audio quality, offers a wideband audio codec that supports seven full octaves of human sound, available across the

entire portfolio line. In addition, ShorePhone's high fidelity, full-duplex speakerphones deliver exceptionally clear audio and enable hands-free conversation.

Engines of productivity

Its intuitive user interface simplifies all telephony tasks including call transfer, conferencing, call pick up, call parking and intercom—even in a multiple-site enterprise. Users can extend the power of their ShorePhone far beyond their desks with ShoreTel Office Anywhere, which allows them to assign their extension to any phone, including a mobile phone or home phone.

Through ShoreWare® Personal Call Manager, ShorePhone IP telephones are automatically populated with system directories, providing instant connectivity through smart directory dialing that allows users to instantly locate and call others by entering the first few characters of a name on the key pad. ShoreWare Advanced Call Manager also provides presence information about the call recipient—whether the user is idle, busy, or in Do-Not-Disturb (DND) mode.

Lower cost of ownership

All ShorePhone IP telephones support plug-and-play installation, reducing time-to-deploy and easing administrator workload. As you connect new telephones to the network, ShoreWare Director automatically discovers the new devices and adds them to the ShoreTel IP telephony system, where they can be centrally managed as nodes on your enterprise network. As new software releases or versions become available, all of your IP telephones can be automatically updated via network downloads, further reducing administration costs.

Effective communication is the heart and soul of every business—including yours. Whether at their desks or mobile, everyone in your organization can reap the benefits of using ShorePhone IP telephones and ShoreWare productivity applications. From the executive suite to the shipping desk, and at businesses of every size and type, ShorePhones help all users to communicate easily and efficiently, every day.

**POWERFUL
COMMUNICATIONS
TOOLS FOR
EVERYONE**

ShoreTel offers a wide range of IP telephones to provide the right communication solution for everyone in your organization: executive, executive assistant, operator, Automatic Call Distribution agent or supervisor, and general office user.

Essential

IP 110: This cost-effective, single-line IP telephone is ideal for open areas including lobbies, visitor's offices, classrooms and dorm rooms. It offers six feature keys for common operations and a one-line display that shows caller ID, date and time. Adding to its versatility, the IP 110 has a speaker that enables one-way intercom communication.

IP 115: A single-line phone that offers all the features of the IP 110, plus a two way speakerphone for hands-free calling.

Professional

IP 212k: This 12-line IP telephone is designed for key-system environments such as shipping departments, supermarket and retail stores, branch offices and small offices. It has eight feature keys and two soft keys for easy access to high performance capabilities. The IP 212k has an easy-to-read high-contrast display and a full duplex speakerphone delivering headset-level audio performance. An integrated headset jack enables increased productivity and ease of use, without cluttering the desktop with additional devices.

IP 230: The IP 230 is a three-line phone tailored for knowledge workers, salespeople and general users who rely on telephone communications. It has eight feature keys and four soft keys for easy access to high performance capabilities. It has an easy-to-read high-contrast display a full duplex speakerphone, and an integrated headset jack.

IP 265: The IP 265 is a six-line phone in a compact form factor with a crisp back-lit color display for knowledge workers with advanced requirements. It also has eight feature keys and four soft keys for easy access to the rich ShoreTel telephone system feature set. A full duplex speakerphone and integrated headset jack are also standard.

Executive

IP 560: This six-line console telephone is ideal for telephony-intensive professionals, executives and executive assistants. A full range of features are available through the IP 560's four soft keys. A large backlit display instantly conveys call information and other critical information. The IP 560's full-duplex speakerphone delivers headset-level audio performance, and an integrated headset jack increases productivity while offering the user the choice of speaking into the handset or choosing hands-free headset communications.

IP 560g: The IP 560g provides all the features of the IP 560—four soft keys, a large backlit display, full-duplex speakerphone and integrated headset jack—as well as 10/100/1000 Ethernet switch. It is ideal for users with Gigabit speed requirements to the desktop, serving the needs of designers, architects and media creators.

IP 565g: ShoreTel's most advanced telephone, the IP 565g provides all the features of the IP 560g, as well as a rich backlit color display and a Bluetooth interface that lets users connect with their personal Bluetooth headset for cordless hands-free calling.

**Programmable
button box**

ShorePhone BB 24:

Operators and assistants have at-a-glance presence information and fast, one button feature access with the only IP-based button device on the market. Buttons can be customized to suit the needs of different users, and self-labeling keys eliminate paper labels.

The BB 24 includes an Ethernet switch and provides Power over Ethernet (PoE) power forwarding for one downstream device. Up to four devices can be associated with an IP 565g/560/560g/265/230/212k—double most competitors'.

All ShorePhone IP telephones feature an integrated Ethernet switch, allowing a network drop to be shared with a desktop PC. They support multiple languages including English (US), French (France), German (Germany) and Spanish (Spain).

Conference Phone

IP 8000: This high-definition audio conference phone delivers the highest levels of quality audio conferencing, providing complete room coverage and high fidelity audio quality. Low distortion and advanced noise reduction allow multiple participants to effectively participate, while reducing distracting background sounds. The IP 8000's elegant, non-intrusive design delivers the highest levels of functionality in an eye-pleasing form.

ShorePhone SoftPhone

A flexible choice for mobile workers, SoftPhone brings desktop telephony capabilities to their PCs, even over wireless networks, allowing transparent access to enterprise telephony features while on the road.

ShoreWare Personal Call Manager

All ShorePhone IP telephones can be enhanced with the optional ShoreWare Personal Call Manager. It provides a visual, information-rich interface for managing and controlling communications. Personal Call Manager works with the user's telephone whether they are on-site using an IP telephone, on the road using a ShorePhone telephone, or while teleworking using their home telephone.

With ShoreTel's Office Anywhere capabilities, workers can assign their extension to their mobile or home phone and have calls delivered to them wherever they are located. Once connected, a keystroke gives access to ShoreTel calling features so they can transfer, conference or otherwise manage their calls.

ABOUT SHORETEL

ShoreTel is a leading provider of *Pure IP* Unified Communications solutions. ShoreTel enables companies of any size to seamlessly integrate all communications—voice, video, messaging and data—with their business processes. Independent of device or location, ShoreTel's distributed software architecture eliminates the traditional costs, complexity and reliability issues typically associated with other solutions. ShoreTel continues to deliver the highest levels of customer satisfaction, ease of use and manageability while driving down the overall total cost of ownership. Founded in 1996, ShoreTel has achieved broad industry recognition for its technology. For more information, visit www.shoretel.com.

ShoreTel Professional Services

To speed your time to benefit and maximize the value of your ShoreTel Unified Communications system, ShoreTel's professionals are ready to use their expertise and experience to assist you at any stage of your deployment. ShoreTel offers a comprehensive range of professional services including:

- Technical Support
- Implementation
- Managed Services
- Custom Applications
- Training

“ We are extremely satisfied with the ShoreTel system. The functionality and the look and feel of the ShorePhones is exceptional, and the quality of the speaker phone is incredible. ”
